

NAM PHAM

Hai Ba Trung District, Hanoi | (+84) 97 7408 420 | namfam.hello@gmail.com | namfam.netlify.app

SUMMARY

- Have ~3 years of work experience as an AI engineer.
- Knowledgeable in machine learning, NLP, LLM, RAG, Agents, Speech Processing
- Familiar with model training/fine-tuning for specific problems (LoRA/ QLoRA)
- Familiar with prompt engineering and developing LLM/VLM, RAG, Agent applications.
- Knowledge of MLOps tools: Docker, FastAPI, Restful API, CI/CD, WandB, AWS, Git
- Ability to build demos/POC for AI solutions

PROFESSIONAL EXPERIENCE

VIETNAM POST

AI Engineer (Aug 2025 – Present)

- Led the design and development of end-to-end Speech AI, NLP/LLM solutions from research to production deployment.
- *Speech AI*: Data collection, preprocessing, model selection, fine-tuning, evaluation, optimization, and deployment for ASR, TTS, and Speaker Profiling.
- *NLP*: Development of NER, text classification, spell error correction, text normalization models.
- *LLM&VLM/Agent*: Design and implementation of pipelines leveraging LLMs/VLMs, RAG, vector databases, tool calling, and multi-agent orchestration for AI-powered HR applications
- *Model Optimization*: Inference optimization using quantization, parallel processing, caching to reduce latency and improve serving efficiency.

VINBIGDATA

AI Engineer (Jul 2023 – May 2024)

- Researched approaches to address domain mismatch challenges in speaker verification/recognition systems
- Reproduced a paper's methodology, adapting it for Vietnamese speaker data
- Conducted in-depth surveys on datasets and methodologies, constructing baseline models for the voice anti-spoofing problem
- Performed model testing, packaging, and deployment via APIs for scalable integration

VIETTEL GROUP

AI Resident (Apr 2023 – Jun 2023)

- Was selected through a rigorous admission process from a nationwide pool of candidates
- Studied data science and AI skills through coursework and collaborative assignments
- Conducted a project on dialect and gender identification for Vietnamese speakers, investigating the effectiveness of various pre-trained deep audio representations

VIETTEL HIGH TECH

Research Engineer Intern (Jul 2022 – Apr 2022)

- Acquired foundational knowledge in signal and speech processing
- Developed a voice activity detection model for speech signals using BiLSTM
- Researched data drift challenges to improve model robustness with real-world data

EDUCATION

HANOI UNIVERSITY OF SCIENCE AND TECHNOLOGY

Bachelor in Computer Science (Apr 2025)

TECHNICAL SKILLS

Machine Learning: Regression, Decision Tree, Clustering, SVM, LightGBM, XGBoost, Bagging/Boosting

NLP/Speech Processing: LLMs, RAG, Agents, ASR, TTS

MLOps: Docker, Restful API, Streamlit, FastAPI, Git, WandB, AWS (S3, EC2, Sagemaker, Bedrock)

Languages/Frameworks: Python, PyTorch, Tensorflow, Scikit-learn, HuggingFace, Langchain/Langgraph

Database: PostgreSQL, Neo4j, Vector Databases

PERSONAL PROJECTS

[Kia](#) | *Multi-agent, RAG, Langchain, Qdrant, FastAPI*

Built a multi-agent AI assistant that answers user questions by coordinating chat, web search, and document retrieval.

[Image2Latex](#) | *Multimodal AI, LoRA/QLoRA, PyTorch, Transformers*

Fine-tuned VLMs (Qwen, LLama, Gemma) to convert math formulas to LaTeX from images.

[TalkToData](#) | *Text-to-SQL, Langchain, MCP, Guardrails AI*

Built an interactive tool that lets users query SQL databases or CSVs using natural language and view results as dynamic charts.

[Solve-It-Easy](#) | *LLMs, LoRA/QLoRA, PyTorch, Transformers*

Fine-tuned LLMs (Qwen, LLama, Gemma) for solving Vietnamese math word problems.

[Vispond](#) | *Multimodal AI, FastAPI, vLLM*

Built a solution for QA over vision inputs like images and videos using multimodal models.

[Lawmina](#) | *GraphRAG, Neo4j, Langchain, FastAPI*

Built a legal assistant that enables users to ask legal questions, analyze contracts, and retrieve legal information.

CERTIFICATIONS

[NVIDIA: Building RAG Agents with LLMs](#) (Dec 2025)

[DeepLearning.AI Generative AI with LLMs](#) (Jul 2023)

[Microsoft Certified: Azure AI Fundamentals](#) (Jun 2023)

[IBM AI Engineer](#) (Mar 2022)

ADDITIONAL INFORMATION

English: TOEIC certificate with score 795 - issued by IIG

(Mar 2023)
